

Amos Gnanaraj J

Location: Chennai, India

SUMMARY

Experienced software engineer with expertise in designing and building enterprise-grade applications, workflow systems, process automation platforms, and intelligent automation solutions. Strong background in .NET technologies, ASP.NET Core, Blazor, SQL Server, workflow orchestration, browser automation, desktop automation, OCR, and local AI integration.

Passionate about solving complex business problems through automation and building developer productivity tools.

EDUCATION

St. Peter's College of Engineering and Technology
Bachelor of Engineering (Computer Science and Engineering)

Chennai, India
Graduated: 2016

EXPERIENCE

Senior Group Lead
Access Healthcare Pvt Ltd

April 2022 – Present

Responsibilities:

- Leading development of enterprise automation solutions.
- Building process automation platforms.
- Designing workflow-based business applications.
- Developing browser automation and desktop automation solutions.
- Creating intelligent automation capabilities using OCR and AI technologies.
- Building productivity tools used across the organization.
- Leading technical design and architecture decisions.
- Key Areas:
 - .NET Development
 - Automation Frameworks
 - Workflow Systems
 - OCR Solutions
 - Enterprise Architecture

Lead Software Engineer
Gold Coast IT Solutions

November 2021 – April 2022

Responsibilities:

- Developed and maintained healthcare domain applications.
- Participated in architecture and deployment activities.
- Delivered enterprise software solutions using Microsoft technologies.

Senior Software Engineer
Eurofins IT Solutions India Pvt Ltd

August 2021 – November 2021

Responsibilities:

- Developed enterprise applications for internal stakeholders.
- Maintained and enhanced existing software systems.
- Worked on application deployment and support.

Senior Developer
Access Healthcare Pvt Ltd

June 2019 – August 2021

Responsibilities:

- Developed process automation platforms.
- Built image-based automation solutions.
- Developed productivity tools and utilities.

Associate Software Engineer

May 2016 – May 2019

Saggezza India Pvt Ltd

Responsibilities:

- Developed web applications using .NET technologies.
- Worked with ASP.NET MVC, JavaScript, HTML, and CSS.
- Applied SOLID principles and TDD practices.

PROJECTS

Process Automation Platform | Developed enterprise automation platform with features such as:

- Web Recording
- Browser Automation
- Desktop Automation
- Image Recognition
- Workflow Execution
- Productivity Enhancements

Workflow Solutions | Built custom workflow-based solutions using:

- Elsa Workflow
- Windows Workflow Foundation
- Custom Activities
- Dynamic Workflow Execution

Intelligent Automation | Integrated:

- OCR
- OpenCV
- Tesseract
- AI Models
- Document Processing Pipelines

TECHNICAL SKILLS

C#

.NET Framework

.NET 8

.NET 10

ASP.NET Core

ASP.NET MVC

ASP.NET Web API

REST API Development

Dependency Injection

Middleware Development

Blazor

Angular

JavaScript

jQuery

HTML5

CSS3

MudBlazor

Responsive UI Design
Elsa Workflow
Windows Workflow Foundation (WWF)
Workflow Design
Workflow Orchestration
Business Process Automation
Process Automation Platforms
Custom Workflow Activities
Robotic Process Automation (RPA)
Browser Automation
Desktop Automation
Selenium WebDriver
Playwright
WinAppDriver
Sikuli
Accessibility Automation
Image-Based Automation
Local LLM Deployment
LLM Integration
AI Agent Development
Prompt Engineering
Intelligent Automation
AI-Assisted Workflows
Document Summarization
OpenCV
Tesseract OCR
Image Processing
Document Processing
Screen Recognition
Microsoft SQL Server
SQL Server 2022
PostgreSQL
Entity Framework
Entity Framework Core
T-SQL
Dynamic SQL
Stored Procedures
JWT Authentication
Windows Authentication
Claims-Based Authentication
Authorization
Encryption
Object-Oriented Programming
SOLID Principles
Design Patterns
Test Driven Development (TDD)
Enterprise Application Architecture
API Design

Git
GitHub
IIS
Visual Studio
CI/CD Pipelines

PROFESSIONAL PROFILE

Senior Group Lead and Senior .NET Developer with 10+ years of experience in enterprise software development, workflow automation, business process automation, intelligent automation, desktop automation, browser automation, and AI-assisted solutions.

Specialized in Microsoft technologies, workflow engines, automation frameworks, OCR, and AI-powered productivity platforms.

MAJOR AREAS OF EXPERTISE

1. Enterprise Software Development 2. Workflow Automation 3. Business Process Automation 4. Robotic Process Automation 5. Browser Automation 6. Desktop Automation 7. AI-Assisted Automation 8. OCR and Document Processing 9. Enterprise Architecture 10. Productivity Tools Development

AWARDS & RECOGNITION

- Shining Star Award (2019) - Gem of the Year Award (2025)

LANGUAGES

- English - Tamil

PORTFOLIO WEBSITE REQUIREMENTS

The portfolio website should contain:

1. Home Page 2. About Me 3. Technical Skills 4. Professional Experience Timeline 5. Projects Showcase 6. Automation Expertise 7. AI & Workflow Automation Section 8. Awards & Achievements 9. Resume Download 10. Contact Section

Preferred Tech Stack:

- Blazor Web App - MudBlazor - ASP.NET Core - Responsive Design - Dark/Light Theme Support

The visual style should reflect a senior software architect focused on automation, workflow systems, enterprise software, and AI-driven solutions.
